# WETIT Walkover

BASE

Our base **WETIT Walkover** package is perfect for farmers looking for a cost-effective solution that does not compromise on reliability. Designed to work seamlessly across all shed types, it delivers solid performance and dependable results without stretching your budget.

## Benefits

- Automated teat spraying proven to reduce mastitis and improve teat condition.
- Significantly reduces time and labour.
- Consistent and accurate spraying enabling teat spray use to be optimised.
- Designed with reliability and simplicity in mind.

## Features

- **Single Trigger Sensor** to active the timer to spray
- High accuracy with 4 spray nozzles designed to eliminate shadowing.
- The Base model is simple to install (option for self install available)
- Perfect for tight spaces
- The floor pack design gives even droplet size, resulting in more even coverage for same volumes of spray.
